Certified Biodynamic

Soil Type:

Limestone, Marl

Fermentation:

Clay, Limestone

Dry/Sweet:

Dry

Body:

2/5

Acid:

3/5

Tannin:

0/5

ABOUT THE WINE

Summer is officially here so to beat that heat we're going to quench your thirst with a crushable Northern Italian white wine, and no it's not Pinot Grigio! Known for its bright lemon and lime flavors with hints of melon, almond and herbs, this grape is the wine equivalent of Pinot Grigio's cooler, more sophisticated older sister, Cortese! Easy-drinking and fruity, yes, but a bit more well-rounded and complex certainly, this wine is perfect to sip poolside or on the deck even on the warmest of days. We are in love with this biodynamically grown and zero zero (no added yeasts or sulfur) crafted Cortese from La Morella. It's ripe and juicy, but still balanced and refreshing and too dang easy to drink!

Notes of citrus, almond, and an herby undertone blend perfectly for a summer sipper!
