Dry

**Body:**

2/5

**Acid:**

3/5

**Tannin:**

2/5

### ABOUT THE WINE

"Making wine is my life choice. When I got back to Sicily after years I had spent somewhere else, I found the vineyards and my father's dream. I took his dream and made it mine. To live here, to feel the energy of this beautiful though difficult land, trying to understand its essence and to capture its generous personality. To be witness and guardian of terroir, preserving its integrity, absorbing its strength and richness, trying to transfer to my wines its profound and fascinating spirit. No tricks, no frills. Just wine." - Marilena Barbara, winemaker and owner.

This up-and-coming Sicilian winemaker has had our hearts and spots on our retail shelves for the last few years. Her wines are always not only delicious, but unique and so darn well made. She carries on a tradition of non-interventionist organic winemaking that started with her father and finds that the land that they share is what keeps them connected, and what connects them to us. This rosé is a certified staff favorite, so it was a no brainer for this month's wine club. The twist off cap makes this wine a super convenient one to take on a picnic or camping and will impress any friends you share it with!

Refreshing and fresh full of berries and herbal flavors.
