Practicing Organic & Biodynamic

Soil Type:

Clay, Limestone, Sand

Fermentation:

Concrete

Dry/Sweet:

Dry

Body:

4/5

Acid:

3/5

Tannin:

3/5

ABOUT THE WINE

We had the chance to introduce you to Ingrid and Jean-Philippe Bouchet of Clos des Mourres wines early last fall and we could hardly wait to bring you another jewel of theirs! We've actually been on quite a kick featuring their wines prominently on our retail shelves (while we can keep them in stock!) and on our glass pour list. Sometimes it be like that when the wines are all so dang good! This month we have a red blend that hails from vines planted in the 80s by Ingrid's grand-father, and of course their passion for "healthy and living soils" means the grapes have been tended with the idea that their potential is started and realized in the vineyard. The winemaking process honors that investment and lets the quality of the grapes shine through. We are a bit obsessed with this wine lately and hope it will become a fast fave of yours too!

A complex palate of herbs, tart plums and berries and a peppery finish.
