Limestone, Clay

**Fermentation:**

N/A

**Dry/Sweet:**

Dry

**Body:**

3/5

**Acid:**

4/5

**Tannin:**

3/5

### ABOUT THE WINE

Red Burgundy that's thoughtfully and organically made that doesn't break the bank- sign us up immediately! Due to complex historical, cultural and economic reasons wines from Burgundy, particularly the reds, even those conventionally made, are on the very expensive side. To find producers who are making beautiful ways eschewing conventional standards in favor of organic and sustainable practices and not manipulating their wines at an everyday wine price is like striking gold and we're here for it. Pinot Noirs from anywhere can be great, but we do find it's true that not only is Burgundy the home of the grape, but the terroir and winemaking styles really do make exceptional versions of the grape. To be able to offer one in our wine club for you is a true joy on our part!

Burgundy style Pinot – not too big, and full of classic Pinot flavors: cherry, cola, black tea, and herbs.
