3/5

ABOUT THE WINE

You want to talk about treating yourself but not breaking the bank? One of our favorite regions to do that in, and one of our favorite producers to do that with, are what we've lined up for you this month! Domaine François Chidaine from the Loire Valley in France makes some of the most complex and engaging wines at a price point that's still readily accessible. We always feel like we're cheating the system when we open his wines so why not share that experience with you?! A darling of the organic and biodynamic movement in France, François' wines are slow wines, carefully crafted, and that craft shines through in the deeply stunning complexity we never fail to find. Break this baby out at the holiday table if you're looking to impress your loved ones!

All the berries, dark and red invited to this party, followed by a leathery and green pepper finish.
