Various

**Fermentation:**

Stainless Steel

**Dry/Sweet:**

Dry

**Body:**

3/5

**Acid:**

4/5

**Tannin:**

3/5

### ABOUT THE WINE

Vin de Soif Loire is a line of wines that is a partnership between Sacred Thirst Selections and Hautes Noëllles winery that's aimed at bringing good quality and approachable wines to us.

"When Vin de Soif was first conceptualized, before the name came about even, the idea was to highlight wines that were fresh, low alcohol and easy to drink. Wines that you reached for to literally quench a thirst. The red wines coming out of the Muscadet region have served this purpose to our team for years now, so it was a natural fit to launch the idea with a wine from this region. We are thrilled to be partnering with Hautes Noëllles for this wine. It is made with the same attention to detail in the cellar and vineyard as all the wines coming out of this winery. The result is exactly what we hoped for; a wine that goes down easy and leaves one wanting another glass. One bottle is rarely enough." - Sacred Thirst Selections

Fortunately for us not only do we love this wine and the idea behind it, but we also have featured Hautes Noëllles wines on our shelves and in wine club before; so we know and trust their work too! This approachable red screams Spring to us and is a nice companion to the Muscadet we're also featuring this month. A fun idea would be to open them side by side; and while you probably won't get similar tasting notes; an emphasis on tart yet restrained fruit and pronounced earthiness will be a common theme between the two. Drink this easy drinking red chilled or room temp, your choice!

Medium in body and full in flavors of tart berries, earthy herbs and the right amount of funky fun!
